

## Resolution 1860 is a disgraceful slap in the face of the rulers in the Islamic Lands Not content with denying Gaza the help of the Muslim armies, they surrender it to the Jews through international resolutions

This morning the United Nations Security Council issued Resolution 1860 regarding the brutal hostility against the Gaza Strip. This resolution's wording employs malicious, political cunning, as used previously in Resolution 242, after the hostility in 1967, which mentions withdrawal from "territories," without specifying withdrawal from "the territories," and thus granting the state of Jews scope to remain on territories that it seized!

With regards to Resolution 1860, its does not mention withdrawal from Gaza, rather it limits itself to a ceasefire "leading" to withdrawal! And "how" or "what" is "leading." And how is it such a resolution, intentionally cloaked with ambiguity, end the Jewish hostility, when they have never ended hostility for other even clearer resolutions?!

The Security Council resolution is not worth the paper it is written on. Moreover there are many resolutions that the Jews ignored, that now fill their dustbins! Despite this, America and its allies prevented the issuing of any Security Council resolution that insists on cessation of hostilities, in order to give the state of Jews an opportunity to continue to spill blood in Gaza, in brutal hostility, until the state of Jews achieves its objectives.

Following and emulating America, the rulers in the Muslim lands fulfilled America's will, willingly and fearfully, so they differed, disagreed and they did not gather...

And when the state of Jews faced great resistance and it was clear to the state of Jews that it was unable to achieve its objectives through military actions, and that the matter will prolong to the time that is due for their elections, when they need an environment of "victory," whether by war or peace, up to the elections and during them, America then became active in realizing their goals for them through the means of the Security Council. Condoleezza Rice was steering the meetings and she moved her pawns amongst the rulers and they started to move, making pilgrimage to the Security Council, to merge their days and with their nights in unrelenting efforts... And they are the ones who look at helping Gaza with the look of the one who is dazed by death, at a time when if a single front, or even a few fronts, were opened, by these rulers the state of Jews would be shaken if not completely annihilated.

These rulers are the "sponsors" of the resolution that allows the state of Jews to achieve what it could never achieve through its hostility! And the resolution keeps the Israeli army in Gaza, whilst sanctioning the Gaza strip of any means of strength and weaponry, and this does not change anything, despite the cosmetic mention of relieving food sanctions!...

And to market this resolution, America abstained from voting for it, as if it were not behind it and so that the Muslim rulers are able to give the impression that they achieved a big victory without America's help, but they are lying and anyone who has a mind that can comprehend will realize that if America was not behind the resolution, it would not have allowed it to be passed.

### **O Muslims!**

Indeed, it was true what the most truthful RasulAllah صلى الله عليه وسلم said,

إذا لم تستح فاصنع ما شئت

"And if you have no shame than do what you wish"

And as for these rulers who are looking on as pure blood is spilled in Gaza of Hashim (named after the grandfather of RasulAllah صلى الله عليه وسلم), they neither mobilize the armies nor launch rockets and bombers, but instead they prevent the volunteer fighters from fighting...! Yet they fall head over heels to endorse the resolution that prohibits weapons and the means of strength for Gaza and ensures the Jewish army's occupation of it, may Allah fight them for what they do.

Any one who looks to the Palestine-occupying entity of the Jews, which is surrounded by these rulers, would realize that the existence of this entity relies upon the existence of these rulers. Not only are the Jews protecting themselves, so are the rulers on their behalf. And America and the other Western states would not be able to protect this entity effectively, if there were a single righteous man amongst them!!

## O Muslims!

As we mentioned many times before, and we re-iterate now, anyone who wants to annihilate the entity of Jews and return Palestine to the Abode of Islam, he has to work for the sincere ruler, the sincere state, the Khilafah Rashida. RasulAllah صلى الله عليه وسلم said,

« الإمام جنة يقاتل من ورائه ويتقى به »

“Indeed, only the Khaleefah is a shield, who protects and leads in fighting.”

And then the state of Jews will cease to exist, as will other colonialist, occupying kufr, states that are stronger and more effective than the entity of the Jews, and they will all be in humiliation.

إِنَّ فِي ذَلِكَ لَذِكْرَى لِمَنْ كَانَ لَهُ قَلْبٌ أَوْ أَلْقَى السَّمْعَ وَهُوَ شَهِيدٌ

“And this is a reminder for those who have a believing heart and hearing, so bear witness.”
